It's time to
Do Something Now!

For too long, our historic downtown Trestle has sat neglected — a dilapidated landmark in the heart of the riverfront it should be celebrating.

The Petaluma Trestle Promenade Now Steering Committee exists to change that: to steer the action and investment needed to transform this crossing into a beautiful, iconic riverfront promenade — a place that welcomes everyone to our downtown river district.

Exciting news! With Healthy Petaluma Foundation as our fiscal sponsor, the Steering Committee is kicking off a campaign to raise \$50,000 from the community by September 1st. The funds are needed to engage a top urban design and planning firm, in partnership with the City of Petaluma, to lead Petalumans through a process of defining a design vision — the next step towards shovel ready plans.

We need your help to fund that contract and move the Trestle from vision to reality.

Donate NOW

Every dollar you give brings us closer to the design that makes this vision real. Please make your gift today. We've waited long enough to transform our deteriorating trestle. Be a part of the change by helping to reach our fundraising goal of \$50,000 by September 1st to get the process started this fall. Donate now!
